

Talking Points Guide

Episode Twenty-three: Empower Men to Empower Women

Answer the following for yourself only or share them with friends and family.

Describe how men and boys in your life fail to promote and live out egalitarianism.

Describe your comfort level with sharing your experiences of inequity with men.

Thinking about your religious experience, describe the ways your church/temple or organization reflects egalitarianism. Meaning, what is the female/male balance in leadership roles?

A cultural preference for male perspectives can exist even in egalitarian churches/temples, which makes it difficult for women to be heard. Describe ways your church/temple or organization, whenever possible, defers to women's leadership perspectives and ideas to help compensate for this cultural bias.
